

GEMSCLEAN WAX

CLEAN & SHINE

TECHNICAL DATA SHEET

PRODUCT DESCRIPTION

GemsClean Wax is a cleansing product with a strong degreasing power which is combined with an excellent polishing power due to the waxes present in its formulation.

The use of the product allows you to intervene on floor surfaces that are also quite compromised from the point of view of cleaning, making them clean and degreased again, then once these surfaces have been cleaned they can be polished making them shiny and giving them a good totalisation.

APPLICATION

GemsClean Wax is applied in small quantities on the surfaces to be cleaned and polished by rubbing with a cloth and after waiting a few minutes the surface can be polished using a dry cloth and a polisher.

Use the pure product in case of interventions on very dirty surfaces, for ordinary maintenance interventions dilute the product with water.

HEALTH & SAFETY

Read Safety Data Sheet before handling or using this product.

STORAGE

If stored in dry and cool condition (5-25°C/41-77°F) in its closed original container at least 12 months from production. Use open containers as quick as possible.

IMPORTANT NOTICE

The above information is based on the latest stage of development and application technology. Due to a multiplicity of different influencing factors, this information, as well as other oral or written technical advises, must be considered as non-binding hints.

The user is obliged in each particular case to conduct performance tests, including but not limited to trails of the product, in an inconspicuous area or fabrication of a sample piece.
