

# GEMSREMOVER OIL STAIN

OIL AND FAT STAINS  
REMOVER

## TECHNICAL DATA SHEET

### PRODUCT DESCRIPTION

GemsRemover Oil Stain consists of a mixture of solvents and absorbent fillers suitable for removing oil and grease stains from surfaces: tables, kitchen tops, bar tops, floors, in polished marble and granite. You get a quick elimination of fresh or superficial stains even with a single application of stain remover; for old or very deep stains, repeated applications are necessary.

### STORAGE

If stored in dry and cool condition (5-25°C/41-77°F) in its closed original container at least 12 months from production. Use open containers as quick as possible.

### HEALTH & SAFETY

Read Safety Data Sheet before handling or using this product.

### APPLICATION

Shake the bottle of GemsRemover Oil Stain vigorously to homogenize the product contained, then pour on the stain

to be removed the amount necessary to completely cover it; leave GemsRemover Oil Stain to act for about an hour then remove the residue with a damp cloth. Repeat the operation until the stain is completely removed.

It is not possible to indicate a possible quantity to be used as there are many problems that can be faced.

### IMPORTANT NOTICE

The above information is based on the latest stage of development and application technology. Due to a multiplicity of different influencing factors, this information, as well as other oral or written technical advises, must be considered as non-binding hints.

The user is obliged in each particular case to conduct performance tests, including but not limited to trails of the product, in an inconspicuous area or fabrication of a sample piece.
