

GEMSREMOVER STAINLIFT

REMOVES STAINS FROM MARBLE,
NATURAL STONE, QUARTZ,
AND CERAMIC

TECHNICAL DATA SHEET

DESCRIPTION

GEMSREMOVER STAINLIFT is composed of a blend of slow-evaporating solvents for removing excess stain-resistant protective treatments on both polished and rough stone materials and terracotta surfaces. Specific designed to effectively remove grease and oils stains on marble, natural stone, quartz and ceramic. The product acts effectively without altering the surface. GEMSREMOVER STAINLIFT does not affect the gloss, evens out surfaces and leaves no streaks.

Our product is an excellent wax remover and can be used manually or with floor cleaning machines. The product completely eliminates glue residue from tape or posters, light inks, and silicone residues. GEMSREMOVER STAINLIFT is a ready-to-use product.

APPLICATION

GEMSREMOVER STAINLIFT can be applied by hand with a cloth or by spraying letting it act and then rubbing with a cloth, or using a single-brush machine equipped with a Tynex disc and black/green Scotch-Brite, then vacuuming with a wet and dry vacuum cleaner.

STORAGE

The products will last at least 6 months in the normal condition between 18-25°C, kept away from source of heat, humidity and sun light. Avoid contact with fiberglass, plexiglass, polycarbonate, and parquet. The product is sensitive to frost; store indoors and well-protected at a temperature not below 10°C. Always wear appropriate personal protective equipment: mask, gloves, and protective clothing.

IMPORTANT NOTICE

The above information is based on the latest stage of development and application technology. Due to a multiplicity of different influencing factors, this information, as well as other oral or written technical advises, must be considered as non-binding hints.

The user is obliged in each particular case to conduct performance tests, including but not limited to trails of the product, in an inconspicuous area or fabrication of a sample piece.
