

GEMSREMOVER MARUST

TECHNICAL DATA SHEET

DESCRIPTION

Dense product, suitable for the removal of deposited rust and localized oxidations, from surfaces in marble, granite, natural stones in general, terracotta, concrete, porcelain stoneware, etc...

APPLICATION

Apply the product locally on the stains to be removed, wait for the reaction (maximum 15 minutes) and rinse with water.

A final wash with GEMSCLEAN MUSCLES diluted 20% in water is recommended.

PRODUCT READY TO USE, does not require dilution.

N.B.: The reaction with oxide and rust causes a purplish colour; after rinsing it could occasionally take a few hours before the complete disappearance of any halo.

USEFUL INFORMATION

The product fears frost, keep it in closed and well-protected places at a temperature not lower than 10°C.

Always wear suitable personal protective equipment; especially for eyes and hands. Our indications and technical advice, whether obtained verbally or in writing, refer to our best knowledge and do not imply guarantees, even towards third parties. We invite you to adapt our products to your needs and working conditions: ways of use and types of processing fall exclusively under the responsibility of the purchaser. As far as we are responsible, we guarantee constant quality in our deliveries within the scope of our general conditions of sale. However, if we were to speak of our liability for any type of damage, it is limited solely and exclusively to the value of the goods supplied by us and used by you.

GEMSREMOVER MARUST

IMPORTANT NOTICE

Before use, anyone is required to find out about the characteristics of the products by reading the label affixed to each package, the technical data sheet and the safety data sheet compliant with Regulation (EC) 1272/2008 (CLP) (and subsequent amendments and adjustments) and Regulation (EU) 2015/830, or possibly by asking us directly; however, we recommend that you scrupulously follow the instructions given or received.

We also recommend carrying out a preventive sampling to detect any unexpected results with respect to the method of application or the quality of the result. Keep the package tightly closed and out of the reach of children.

Ventilate the workplace well during and some time after applying the product. Do not eat or drink during use.
